Oshay Green

*Lack*

February 11 - March 17, 2024

In this show there are two bodies of work.

The freestanding works are stacks of servo motors.  
Non-intelligent tech, arranged in vertical sequences.  
Totems of industrial muscle.  
Cairns of e-waste. No more function.

The leaning and wall-mounted works are gun combines.  
Triggers, receivers, barrels, flash suppressors, and other firearm  
scraps welded together.  
Hollow, disarmed. No more function.

The phrase, “caught lacking,” refers to being confronted, by  
surprise, without a weapon for self-defense.

Oshay Green (b. 1994) lives and works in Dallas, Texas.

Ramiken is open Wednesday - Sunday, 12-6pm.
